SIDDHARTH THAKUR

UI/UX Designer · Visual Design · Frontend Development

9797565600 | sidthakur854@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

UI/UX Designer with 2+ years of hands-on experience designing and building interfaces for real users inside a manufacturing enterprise. Delivered 5+ end-to-end products at Hindustan Platinum — from stakeholder discovery through on-site training and post-launch iteration — covering internal auditing, governance, and employee-facing portals. Equally comfortable in Figma and code (HTML/CSS/JS/React), enabling fast design-to-production cycles with minimal handoff friction.

WORK EXPERIENCE

Hindustan Platinum | UI/UX Developer | Feb 2024 – Present

Enterprise product design for internal plant & corporate users across 200–700 employees

5S Smart Audit App: (Owned end-to-end UX)

- Replaced a fully paper-based audit process with a digital, dropdown-driven interface — cutting audit completion time by 50%+ and eliminating manual transcription errors that previously caused compliance discrepancies.
- Solved real access constraints through design: introduced a shared kiosk screen (TV display) for shop-floor workers without desktops, assigned backup submitters for high-load shifts, and extended the submission window to 2 days — all based on field observations during on-site training sessions.

HP Setu Intranet Portal: (Redesigned the Site)

- Transformed a cluttered, rarely visited intranet into an active internal hub — restructuring information architecture into clear sections, adding event galleries, IT app directories with user manuals, and Canva-designed content cards for news and updates. Received positive feedback from management on improved employee engagement.

e-Governance, e-Logbook, and e-VisitingCard: (Led Full UX)

- Built scalable Figma design systems and WCAG-compliant mobile-responsive components across 3–4 projects, each going through full stakeholder discovery → design → user training → post-launch iteration cycles.
- Served as designer and developer:
- Handled both Figma design and frontend implementation (HTML/CSS/JS/React), using AI coding tools to accelerate complex components — resulting in zero design-to-dev handoff gap.

Career Dreams Education | UI/UX Intern | Sep 2021 – Oct 2021

- Designed modular digital assets and visual components for campaigns, maintaining brand consistency and supporting development teams.
- Observed and documented UI accessibility best practices, contributing to more inclusive component design.

CompSA, DYPIEMR | Media & Graphics Coordinator | Sep 2021 – Mar 2023

- Led a team of 3 to develop cohesive visual components and component-based design systems for digital campaigns across multiple platforms.

FEATURED PROJECTS

5S Smart Audit App — Hindustan Platinum (Internal)

- Digitized a paper-based factory audit system. Designed responsive interfaces + user flows; introduced dropdown-based checklists, real-time data capture, and automated report generation. Cut audit time by 50%+ and reduced manual errors by 25%.

FinFree – Financial Wellness App — Portfolio Project

- End-to-end UX: user flows → wireframes → high-fidelity Figma prototypes. Simplified complex financial data using bar charts and intuitive dashboards designed to reduce cognitive load for non-finance users.

Sangathan – CSR Portal — Portfolio Project

- Led UI/UX design from wireframing to high-fidelity prototypes. Designed user-centric navigation for internal employees, improving accessibility and information discoverability.

e-Governance & HP Setu Intranet

- Built a scalable Figma design system adopted across multiple internal tools. Improved information architecture for plant and corporate employees, with WCAG-compliant components.

SKILLS

Design & Prototyping: Figma (design systems, high-fidelity prototypes, responsive layouts), Canva, Wireframing, Information Architecture

UX Methods: Stakeholder interviews, Usability testing, On-site user observation, WCAG accessibility, Iterative design

Frontend Development: HTML, CSS, JavaScript (ES6+), React, Responsive Design, Web Performance Optimization

Soft Skills: Cross-functional collaboration, Design-to-dev handoff, User training & documentation, AI-assisted design workflows

EDUCATION

Bachelor of Engineering (B.E.) SGPA: 8.8

Dr. D.Y. Patil Institute of Engineering, Management & Research, Pune | 2020–2024

CERTIFICATIONS

- Google User Experience (UX) Design – 7-course professional certificate
- React – The Complete Guide (Udemy)
- Data Structures and Algorithms Essentials (Udemy)
- Amazon Web Services Cloud Essentials (AWS)
